

ASX Announcement: 26 February 2019

DRILLING RE-COMMENCES AT GIDGEE GOLD PROJECT

New program of Reverse Circulation and diamond drilling underway to test extensions at the Whistler and Montague Gold Deposits

Further to its announcement of 4 February 2019, Gateway Mining Limited (ASX: GML) (**Gateway** or **Company**) is pleased to advise that drilling has re-commenced at the Company's 100%-owned Gidgee Gold Project, Western Australia (Figure 1).

The new program will consist of 9 holes of Reverse Circulation (RC) drilling (~2,000m) at Montague and a series of diamond drill tails at both the Whistler and Montague Gold Deposits (5 holes for 350m). The drilling is targeting depth extensions of the high-grade mineralised zones at both the Whistler and Montague Gold Deposits.

Drilling is expected to be completed within a month and results will be reported as they come to hand.
